Antonio

Aspiring Virtual Assistant | Administrative & Digital Support

BS COMPUTER SCIENCE GRADUATE

I'm seeking opportunities to provide reliable support with email management, data entry, calendar management, Canva content, document organization, and other day-to-day digital tasks. I bring a technical background, learn quickly, and am ready to pick up new tools, systems, and workflows.

What I handle

Email Management

Inbox triage, drafting replies, and keeping your email calm and on top of things.

Data Entry & Spreadsheets

Accurate entry, cleaning, and organizing data into clear, usable sheets.

Canva & Graphic Design

Simple social graphics, flyers, and visuals that look polished and on-brand.

Calendar Management

Keeping schedules, meetings, deadlines, and reminders well organized and easy to follow.

File & Document Organization

Consistent naming, folders, and templates so everything is easy to find.

Task Management

Prioritizing work, tracking progress, and keeping daily tasks moving without confusion.

Clear, dependable support across the digital admin tasks clients rely on most.

MAYOR'S OFFICE

Cleaned Spreadsheet

A customer dataset cleaned, organized, formatted, sorted, and prepared for easier information management.

Organized Email Inbox

A Gmail inbox organized with custom labels, priorities, follow-ups, filters, and quick-reply templates.

Canva Graphic Design

A Canva-designed event graphic demonstrating clean layout, typography, and visual consistency.

Cleaned Spreadsheet

A customer dataset cleaned, organized, formatted, sorted, and prepared for easier information management.

Click any sample to view the full image and see a closer look at the work.

Calendar & Schedule Management

A structured Google Calendar demonstrating meetings, deadlines, reminders, and organized weekly scheduling.

Formatted Document

A professionally formatted business report with consistent headings, spacing, typography, and structured information.

Task Management Dashboard

A Trello workflow organizing tasks by priority, deadlines, and progress across To Do, In Progress, and Completed stages.

About me

I'm a **BS Computer Science graduate** looking to build my career as a Virtual Assistant. While I'm new to the VA field, I bring a strong foundation in digital tools, organization, communication, and problem-solving. I'm a reliable and persistent learner who is comfortable learning new tools and adapting to different workflows and client preferences. I'm eager to support businesses with day-to-day tasks such as email management, data entry, document organization, calendar management, Canva content, and other administrative tasks while continuously developing my skills as a Virtual Assistant.

- Reliable
- Detail-oriented
- Quick learner
- Tech-savvy

Tools I work with

- Canva
- Google Workspace
- Microsoft Office
- Excel / Sheets
- Task Managers
- Calendar Management

Programming & technical skills — from web development to troubleshooting — support my admin and digital work.

Let's work together

Tell me a little about what you need help with. I usually reply within a day.
